

Wireless Tasmania is providing wireless access via its portal at the Hobart waterfront. Check your email, browse the internet and explore some of the new mobile digital content.

WHAT'S ON THE PORTAL?

The portal is a new way in which to explore new mobile digital content, services and applications. We've prepared some resources to help you enjoy the Hobart waterfront.

Visit the main attractions, check out local events or read about the area in our waterfront guide book at www.wirelesstasmania.com.au

WHERE IS THE WIRELESS HOTSPOT?

The wireless hotspot currently includes the area immediately around Salamanca Place, Parliament Gardens, Princes Wharf No 1 and Salamanca Square, as well as Brooke Street Pier, Elizabeth St Pier and across to the Henry Jones Hotel side of Hunter Street, including Constitution and Victoria Docks.

ARE THERE ANY COSTS?

There is basic free internet connectivity for visitors who are in the hotspot area. Registration is easy! Once the free session is over, you have the option of purchasing internet access through our project ISP partner, Tasmanet Pty Ltd.
